

RAILWAY RISK & SAFETY MANAGEMENT POSTGRADUATE COURSE

The OppO Foundation has partnered with Birmingham University and is pleased to be able to sponsor a number of Ex-Military personnel on the Railway Risk & Safety Management (RRSM) course at no cost to the candidate. We are extremely grateful to the University, Julianna Moats and Professor Felix Schmid in providing us with this opportunity and for seeing the potential within military personnel.

The modules for the Postgraduate - Railway Risk & Safety Management (RRSM) course are:

- Railway Operations and Controls Systems Design (ROCS)
- Rolling Stock and Infrastructure Systems Interactions (RSIS)
- Strategic Business Management for Railways (SBMR)
- Railway Traction and Electrification Systems (RTES)

**STAFF SERGEANT
RYAN CHRISTEY**

Service:
Army - Royal Engineers

Rank:
SSgt

Time served: 1
9 Years (Still Serving)

Trade:
Clerk of Works (Electrical)

Course:
Railway Risk and
Safety Management

“I heard about The OppO Foundation through a friend who had also had the privilege of undertaking learning through this education program. He explained how The OppO Foundation helped him attend a number of modules about railway infrastructure provided through the University of Birmingham. He said the modules were challenging and very interesting.

There was nothing to fear, I was successful and I was offered a number of modules.

These courses will enhance my personal development throughout my remaining service. On completion of these modules and over my next 3 years of service I would like to complete the MSc in Railway Risk and Safety Management using my ELC's so that I can eventually specialise and pursue a career in the Rail Industry.

The OppO Foundation has given me a great opportunity that would not normally be offered to military personnel. The OppO Foundation is allowing me to proactively prepare in a timely manner for transition into civilian life and hopefully a new career in the rail industry.

What a fantastic privilege it is to have been offered this opportunity, I am truly thankful to The OppO Foundation. I would not hesitate to recommend this program to other colleagues leaving the service.”
